

The background of the cover is a close-up photograph of a medical instrument, likely a catheter, with a clear plastic bulb at the end. The bulb is positioned over a white dial with blue markings and numbers, including 1600, 1400, 1200, 1000, 800, and 600. The dial is part of a larger device, possibly a syringe or a flowmeter. The lighting is soft and clinical, with a yellowish tint at the bottom of the image.

Urology

URINE DRAINAGE LUXURY BAG

Special Features

- Made from medical grade PVC
- Composed by Bag, Inlet tubing, Universal Double Hook, T-Tap Drain Port and Connector
- Air Vent Bag with 2000 ml capacity
- Anti reflux chamber
- Reservoir with easy drainage and drop free after use
- Hospital and home care use
- Accurate urinary flow measure
- Sterilized by EO
- Single use only
